

DEPANNER BELTS

Increase Food Safety. Improve Productivity.

Depanner belts are used in bakeries to remove baked goods from metal pans after they come out of the oven. Depanner machines rapidly remove bread and buns from pans making bakeries more efficient than manual removal baked goods.

Benefits of Depanner Belts:

- Metal Detectable Cups and Retainers
- Reinforcement on Splice Available
- Sealed Edges Available
- Food Safety – Allergen Control

Contact your MIR Continuous Improvement Specialist for specific application questions and to receive a quotation.
