

POSITIVE DRIVE

Increase Product Yield. Improve Runtime.

SOLUTION SPOTLIGHT:

MIR positive drive belts are an excellent replacement for plastic modular belts. They offer smooth and textured, high-release surfaces that enhance transferability. Increase your overall yield and reduce waste with custom fabrication and designs.

Benefits:

- Reduce sanitation time and water consumption by 50%
- Eliminates hinge points that harbor bacteria and allergens
- Lightweight and easy to clean
- Eliminates connecting pins
- Excellent resistance to sanitation chemicals
- Clean, Sanitary homogeneous splices
