

MODULAR FOR TORTILLA

Hygienic. Low Maintenance.

MIR offers solutions for all aspects of tortilla manufacturing. Our plastic modular belts are used in masa/dough handling, entering/exiting oven, bridge to cooling, multi-tiered cooling, counter-stacker and packaging.

Benefits:

- Open modules have minimal product contact, allowing product to cool quickly without sweating and allowing crumbs to fall through
- Product stability from sprocket engagement
- Hygienic and easy clean

Contact your MIR Continuous Improvement Specialist for specific application questions and to receive a quotation.
